

KEY FEATURES

- 2 way passive filter
- 18 dB/octave attenuation slope
- Excellent power handling (150 w RMS)
- Optional tweeter attenuation (0, -2, -4, -6 dB)
- High quality made in Germany components
- Carefully designed to work with Experience drivers

**TECHNICAL SPECIFICATIONS**

Type	2 way
Crossover frequency	2.5 kHz
Power capacity	150 w RMS
Low / High frequency impedance	4 ohms.
Attenuation slope	18 dB/oct.
H.F. attenuation	0, -2, -4, -6 dB
